

Remember...

- All answer must be in complete sentences
- All arrows must be pointing to the organisms that are obtaining energy.
- Trophic levels start with the producer and move up.

Accommodations to Meet Student Needs

To the student: The directions above should be followed unless you require accommodations for task administration. These accommodations may be described in your IEP, 504 Plan, PLP, or in relation to your status as an English Language Learner.

If you require accommodations, tell your teacher about them. Together, you and your teacher should describe the accommodations you require in the space below:

Presentation/format: _____

Timing/scheduling: _____

Mode of response: _____

Environment/setting: _____
